<ul style="list-style-type: none"> <li>• The class was very straight forward, well defined and nothing was throw at us last minute. The teacher was very helpful, available and transparent in his expectations.</li> <li>• Professor Siskos was delightful to have. He constantly provided feedback with the tests and discussions. Additionally, he was timely with responding to emails.</li> <li>• Our professor was amazing! I was nervous to take this class but his positive words and responses made me look forward to the class. Even if I "missed the mark" on the discussion board posts he not only complimented me on what was correct but he steered me back into the books to look for a response to his question. I have already recommended him to friends that need this course!</li> <li>• very knowledgeable instructor</li> <li>• Instructor was very responsive and helpful. Will highly recommend to other students.</li> <li>• Not having been in a classroom environment for many years, having to deal with timed quizzes was very stressful and personally was difficulty to deal with and felt it was an unfair advantage.</li> <li>• Good instructor the class greatly helped</li> <li>• Very helpful and timely when answering questions.</li> </ul>

20 - General comments regarding this course:	
<b>Response Rate</b>	5/20 (25%)
<ul style="list-style-type: none"> <li>This course is difficult and only allowing the use of a paper textbook is limiting. Would have preferred access to a digital version of the textbook.</li> <li>I didn't like the fact that there was two papers to turn in at the same time during Week 8, and how the last week (Week 9) of the course we had to do additional work when it was finals week. We should be preparing for the final, not finishing additional work that takes time away from studying. Back to the topic of the papers, I understand that the assignments were given in advanced, and we should manage our time accordingly, but with other classes and life it became overwhelming to be on top of things. Lastly, the quizzes were too much. It felt that I needed to memorize every sentence within the chapter. Plenty of times the answers were based on some random sentence within the passage. The questions should be testing us on whether or not we understand the material in an overall sense. It shouldn't be testing us on memory, or extremely specific things. If that's the how the quizzes are meant to be, then the quizzes should not be timed. Other than that, the class and the professor was enjoyable. The assignments just need to be tweaked. Thank you.</li> <li>I spent a lot of time in the books of this course. This is a tough subject for me and I knew that this was going to be a tough course and would require a great deal of my time.</li> <li>Very heavy on coursework in the last few weeks. Other than that really enjoyed it</li> <li>Best class so far</li> </ul>
